### **JOB DESCRIPTION**

The sign installer's main responsibility is to install and service signage in a SAFE and professional manner.

### **RESPONSIBILITIES**

- Must have the ability to be flexible and work on various work orders throughout the day.
- Must have the ability to read and understand blueprints, engineering drawings, and art renderings.
- Must have the ability to weld aluminum and steel.
- Must be presentable and possess the ability to speak with the team and other departments in order to build relationships and to communicate status.
- Must have electrical experience.
- Be thorough and accurate when filling out all paperwork pertaining to the specific job.
- Must have the ability to correctly allocate time and material to specific work orders.
- Must maintain all assigned equipment, tools, and vehicles.
- Must be able to work overtime as workload increases.
- Must have the ability to receive work orders and maintain expected completion dates by proper planning and working in an expedited manner.

### **JOB REQUIREMENT**

- Must be a self-starter, motivated employee who can work without supervision.
- Expert problem solving and troubleshooting ability.
- Must have the ability to work with all members of the installation/service department.
