About Us

Bakers' Signs is a full service sign and lighting company that has been servicing Houston and the surrounding areas for over 25 years. We are also a full service electrical company which enables us to handle all of our clients signage needs.

Though our company provides services to clients within a 150 mile radius of Houston, we often provide service ranging from West Texas to Louisiana. We believe that customer service is the primary reason for our many years in business as well as our consistent growth year after year. As times and technology change, so does our ability to provide more efficient, effective signage and lighting to our customers.

Old fashioned integrity and service has driven our company through good times and bad, but cutting edge technology ensures those attributes will last us well into the future.

Welcome To Bakers' Signs

Design

Any successful business owner will tell you that in order to thrive, you must find a way to stand out and be noticed. A custom designed logo is a fundamental place to start. Your company signage is no different!

We have an exceptional design team on staff to handle all of your custom design projects and with- out the unnecessary cost of a design firm. We can handle all aspects of branding for your company as well as design attractive signage to send a message to your potential customers; ***"We Are Here, We Are Professional and We Want Your Business."***

OUR DESIGN SERVICES INCLUDE:

- ⑧ Custom Logo Design
- ⑧ Company Branding
- ⑧ Custom Sign Design
- ⑧ Signage Renderings
- ⑧ Custom Vehicle Graphics

Manufacturing

At Bakers' Signs, we try to keep everything we do in-house to avoid the markup incurred when a job is subcontracted to another company. This savings is passed on to our clients and allows our company to be the most competitive sign shop in the business.

With the purchase of our new 35 acre property, we have a 5000 sq.ft. fabrication shop to accommodate our in-house fabrication and manufacturing. In addition to the "Fab Shop", we have buildings for our other service departments such as the Paint Shop, CNC Router Shop and our Inventory Building. When we combine our facilities, inventory on hand and our veteran fabricators, it is only natural that we produce an exceptional product for our clients.

Installation

Installation is just another crucial step to completing your sign project. Our company specializes in sign installation with all of the necessary equipment and personnel necessary to get the job done quickly and right the first time. Many national and local companies rely on Bakers' Signs for their installation projects in this region.

Whether you need a sign manufactured and installed or already have a sign in need of installation, we can help you get the job done.

Maintenance

We are a full service electrical company with crews consisting of journeymen and helpers. We also have a fleet of service trucks to ensure we are able to take care of all of our customers with expedience. Our crane trucks have an available overall height each of up to and including 130ft. We pride ourselves in servicing all calls in a timely manner and if an emergency arises we are able to assist you immediately.
