# INSTALLATION & MAINTANANCE

We can install all type of signs. If you currently have any sign that need lamps, ballast, painting or an overall face lift we can have a service department dedicated to providing maintenance to your existing signs. Whether we installed your business sign or not, we are happy to help you service it. Our crew will come out, run diagnostics on your sign and find and fix the problem.

## INSTALLATION & MAINTANANCE

# SURVEY & PERMITTING

If you are looking for the technical information on your next signage project, be it for permits, manufacturing or installation; let us gather the information for you. Our standard survey pack includes a general plot plan, elevation photos and sign measurements.

GS&S will give you and accurate overview of the job site and signs conditions. Our staff promises customer satisfaction from assisting on variances, permits and local

codes to coordinating the installation of multi-location projects.
